EXT. DAY - MARS

The four men are standing on the rusty red surface of the planet Mars. The sky is pink, and their are giant mountains a long way away from where the guy's are standing.

As they walk over the top of a hill of sand, they can see that a white structure is sitting ahead of them it is their habitat where they are going to spend the rest of their lives.

MAX
That is where we are going to spend the rest of our lives.

SANJAY
The rest of our lives?

MAX
You did know this was a one-way deal right.

SANJAY
Now that you mention it I remember that being said. I didn't really think too much about it. I thought it was a disclaimer, or something.

MAX
It was very much a disclaimer. A disclaimer stating that you can never go back to Earth.

Sanjay shrugs. Then he bends down to pick up a rock, stands back up and throughs it.

SANJAY
First man to throw a rook on Mars!
(Dean pats him condescendingly.)

DEAN
Way to make history buddy.

The habitat is reached by the guys.

RAY
I am going to be the first one in.
